• Python Essentials (Cisco)
• Git & GitHub, Command Line (freeCodeCamp)

TECH STACK

• HTML, CSS, JavaScript
• Git, GitHub, Command Line
• Responsive Web Design
• Debugging & Troubleshooting
• DOM Manipulation
• Mobile-First Design

ABOUT ME

I am a motivated and self-taught Junior Web Developer with a strong foundation in HTML, CSS, and JavaScript. I have created several personal projects, including an e-commerce site and interactive browser games, which demonstrate my ability to build responsive, user-friendly interfaces.

While working full-time in demanding environments, I have consistently developed my coding skills and completed multiple online courses. I'm now seeking an opportunity to grow as part of a tech team where I can apply my skills, learn from experienced developers, and contribute to real-world projects.

PROJECTS

EVERBLOOM SHOP
An e-commerce site with cart, product filtering and Stripe payment.
HTML, CSS, JavaScript, Airtable API, Stripe API
<u>View Live Project</u>

GUESS THE NUMBER
A simple logic-based browser game using DOM manipulation.
HTML, CSS, JavaScript

NEON ROLL GAME
An arcade-style game with animations and keyboard controls.
JavaScript, CSS transitions

WORK EXPERIENCE

2020 – Present

AMAZON FULFILMENT CENTER – WAREHOUSE OPERATIVE

- Fast-paced environment with strict time targets
- Developed precision, discipline and attention to detail

2013 – 2020

CHEF & SOUS CHEF ROLES – VARIOUS UK RESTAURANTS

- Managed kitchen teams of 3–10 staff
- Trained new employees and maintained safety standards
- Gained experience in teamwork, leadership, and operations

Note: These roles helped build soft skills essential in tech: communication, pressure management, team collaboration.

REFERENCES

Although I do not yet have specific references as a junior developer, I am committed to continuously developing my programming skills.

References from my career as a chef are available upon request.

I've shown strong determination and self-discipline by learning web development independently while working full-time. I enjoy solving problems and taking on new challenges, and I'm eager to grow as part of a collaborative tech team.
